Need Help Accessing Your College Accounts?

Wednesday, January 25 at 10:50am or 2:25 pm

Free

Learn how to navigate through the College's Student Information System (SIS), your Email and your Blackboard accounts. It's easier than you think. Being prepared will result in success.

Tell me a Tale

One-night/Monthly • Beginning at 6:00 pm

Wednesdays • February 1, March 7, April 4 and May 2

Free

Becoming engaged in a tale read by one of our specialists encourages children to explore their unique expressiveness and heighten their ability to communicate thoughts and feelings. The staff of WMCC invites your child(ren), your grandchildren and you to explore their imaginations and interact through carefully planned tales and activities. The sessions are devoted to young children, offering an opportunity to bond through their creative thoughts. Healthy snacks are provided.

NLN Test Preparation

5 Sessions • 8:00 - 12:00 noon

Fridays • February 24 – March 30

Tuition \$80 • GEW0004.NLN, crn #20512

Preparation will be the key to your success. This course will provide an overview of the NLN exam, including practice tests, and test taking strategies. Instruction will focus on the content of the exam, encompassing reading comprehension, vocabulary building, math, and science skills. Required text:

Nursing School Entrance exams, Your Complete Guide to getting Into Nursing School by Kaplan.

Instructor: David Moore

Stick Metal Arc Welding for the Beginner

15 Sessions • Mondays & Thursdays • 5:15-7:45 pm

January 23 – May 9

Tuition \$850 • crn #20212

This course introduces fundamental processes of all applications of stick welding. Students will accurately weld carbon steel coupon joints in all positions according to AWS standards. Through the hands-on approach, students will apply their skills in laying multiple beads in the vertical, horizontal and overhead structural applications. Skills could simply transfer into the college's one-year Welding Technology Certificate Program.
